Via Personnel Division

FROM : Chief, D/In

SUBJECT: Exemption of [REDACTED] from D.C. jury duty

DATE: 9 November 1949

25X1A

25X1A

[REDACTED] an intelligence analyst in D/In has been requested by the D.C. authorities to fill out a questionnaire for jury registration. While [REDACTED] may not qualify as "key personnel" in the accepted sense, it is urgently requested that CIA take appropriate steps to exempt him from jury duty for the following reasons:

25X1A

1. D/In at present has only six analysts, has an extremely heavy work load under the most favorable circumstances so that absence of even one analyst would tend to disrupt operations of the division.

2. [REDACTED] is the D/In specialist in international labor matters as well as various international "front" organizations. He represents D/In on the ORE Committee on International Communism.

25X1A

3. Jury duty might entail one month's absence from CIA, but if a salesman were assigned to a complicated case like the [REDACTED] case, it might hold him up for two or three months. Under the special circumstances of this case, D/In is unable to spare [REDACTED] services.

25X1A

Expeditious action is requested as [REDACTED] has already received a second notice from the District Court.
